Message from the St Luke's Team

It's been wonderful to see you all looking so tanned after the short break. This week has been very exciting for us! We have been thrilled to have had sports events for the KS2 children. This is in the run up to sports day, which we have now postponed in the hope of some COVID clarity. The children took part in archery, tennis and a round robin of activities. We hope to use this model for Sports Day. If your children (years 3/4/5) took part, please ask them about it and see the attached photographs too.

Today, we began Forest School for our Reception children. They will pave the way for the whole school. Next week we hope to offer an alternative outdoor learning program to Rowan Class. A BIG thank you to Mrs van der Aa for getting this project running again.

Next week, Rowan Class will take part in informal SATs tests. The remainder of the school will also be taking part in informal assessments. These will be used for gap analysis and group work. Please do not worry about these assessments - they help us support children where we see help is needed.

SPECIAL NEWS : What's going on at St Luke's

NEWS

Change to Sports Day: We hope to be able to invite parents. However, this may not be an option and we hope you will understand if this is the case. We will keep you informed. We have a variety of events booked as back ups - just in case the rules change and you can come on site.

Outdoor learning: We are delighted to be able to start Forest School for the Reception children and outdoor learning for year 6. We will develop this program carefully in line with risk assessments.

End of Year Trips: Due to staffing and the nature of the year, we are focusing on making their final year for year 6 memorable. We would really appreciate your understanding on this matter and hope the remainder of the children will benefit from the events we run next year.

Polite reminder:

Attendance

The winners are:

27th May to 9th June:
Congratulations to Holly class
for 100% attendance.
Whole school attendance is
95.13%.
